Announcement of Cancellation of World Children's Baseball Fair in 2022

First, we would like to express our gratitude for your continuous support for World Children's Baseball Foundation (WCBF).

In terms of the continuous outbreak of Novel Coronavirus worldwide, World Children's Baseball Fair 2022 has been cancelled.

We have been preparing for the 30th Fair, which would be commemorative to all of us; however, the global spread of the variant strain of the Novel Coronavirus, immigration restrictions and movement restrictions after the immigration due to the virus are still going on, in addition to that, our concern over the number of cases and Japan's health-care system led to this decision.

We feel terrible about not being able to hold the Fair for three consecutive years, but we sincerely hope that you will understand the highest priority is everyone's safety, which includes participants from all over the world, staff members, and all the people who will make the Fair a success.

We hope things return to normal soon. WCBF is praying for everyone's health. Please stay safe and well.
